

2024 Annual Report

In 2024, One Love Animal Rescue in Savannah, GA made significant strides in animal welfare through a wide range of impactful initiatives. As an organization, we rescued hundreds of animals, including major transports from neglectful environments, such as the GARD facility, where we took in over 200 dogs in need of urgent care. Many of these animals had severe medical issues, and One Love provided life-saving veterinary treatment, fostering, rehabilitation, and transportation to our partner rescues to give them a second chance. The rescue hosted multiple adoption events and community outreach efforts, including free vaccination and microchipping clinics to support pet owners and reduce shelter intake, our 2nd Annual Open House, our 1st *Cat Bus Event* at Starland Yard, and numerous weekend events at PetSmart to name just a few. Through dedicated foster homes, generous grant support, and community fundraisers like our largest annual auction, we were able to continue our mission without a physical shelter. In addition to facilitating rescue transports and adoptions, One Love took in many special-needs and medically critical cases from local shelters—animals that otherwise faced euthanasia—and gave them the care they needed to survive and thrive. Our efforts in 2024, not only saved lives but also strengthened the bond between pets and the community.

None of this would be possible without the unwavering support of our community. From our dedicated volunteers and fosters to generous donors and event partners like Chatham Subaru, every life we saved in 2024 was a direct result of your compassion. Thank you for standing with us and helping give so many animals a second chance.

What We Envision

The number of animals being surrendered to the area shelters continues to rise at an alarming rate, and the need for rescue is greater than ever. We're committed to saving as many of these precious lives as possible, but we can't do it alone. This year, our transport bus broke down during a life-saving mission, and the cost of repairs is currently beyond our means. Replacing it has become a critical need, so community support to make this happen will be essential. We're actively pursuing grant opportunities to help cover the cost and with your continued help, we're confident we can overcome this challenge and make an even greater impact in the year ahead—because together, the best is yet to come.
